Much is being said and written these days about "Jack" Darragh, manager and captain of the Nallers. Goaded by the injustice of McInerney's decision at Saginaw in Saturday's game, Darragh said things that possibly should not have been said. But it must be remembered that an umpire, who "has it in" for a team, can so misuse his position as to make a saint feel like using unduly strong language. And this is the case in the present instance. McInerney has twice been deposed because of protests entered by Wheeling, and is said on good authority to "have it in" for the Nallers. His decision at Saginaw was said to have been outrageously rank. No wonder then that Darragh could not stand it. Mr. Power would do a good thing if he would remove McInerney once more and forever.

As to Darragh, Wheeling should support him in his resistance to unjust treatment at the hands of an umpire who is disposed to give Wheeling the worst end of the deal. That Saturday game at Saginaw should not be recorded against Wheeling. It should count for nothing and be played over with a competent umpire handling the indicator.

Special Dispatch to the Intelligencer.

PORT WAYNE, Ind., June 15.—Rain stopped to-day's game in the twelfth, when Fort Wayne had men on second and third and two out with Thurston at the bat, and Wheeling's half to come. Carrick re-placed Swain, at the end of the fifth and Wheeling opened on him with three hits and adding two in the seventh. Cregier began the tenth with clean double scoring on Lynch's hit. Whaley made a long two-baser, went to third on Rickert's bunt and scored on Carrick's miff of Tebeau's poor assist. The features were the hitting of Wagner and the batting of Whaley, who made a triple, a double and two singles. Baker pitched a steady game. Score:

Captured the Thief.
Yesterday Captain Robert McNichol got a clue to the whereabouts of the man who stole the mare belonging to Mrs. A. D. Garden, Saturday night, and at once despatched Lieutenant Lukens to arrest him. The man was found at the home of Hez. McCulloch, on Short Creek, and had just sold the mare, saddle and bridle to Mr. McCulloch for a silver watch and \$5. The man gave his name as Waverly Pultz, and said his uncle gave him the horse. The warrant was sworn out before Squire Gillespie and the hearing will take place to-day. Pultz lives on North Main street and is said to have borne a good reputation heretofore.

Captain Knox's Case.
The case of the city against Capt. C. W. Knox, of the Keystone State, comes up for a hearing this morning and it promises to develop some very interesting phases. The case, as everyone knows, is the outcome of a violation of the calf ordinance, which provides that all calves must be muzzled while on a boat is at the wharf between midnight and 7 o'clock in the morning. The defendant will ask that the fine be made sufficiently large that an appeal may be taken, and a last case made of it. It is also proposed to bring the matter before the Western Pennsylvania Humane society and the West Va. society, and see if the city cannot be compelled to repeal the ordinance, which is said to cause agony to the animals.

Gladness Comes
With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle enemas—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant, family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the only remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.
If in the enjoyment of good health, and the system is regular, laxatives are not needed. If any actual disease, one afflicted with such a condition, the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

A NEW ELECTRIC LAMP

Will Probably be Used for Lighting the Streets. It is a Single Carbon and Very Economical.
The city gas trustees are testing a new air light which if found to be what is claimed for it, will be adopted for use in the illumination of the city's streets, and will be a saving of a great amount of money every year. The new lamp was brought here about a week ago by the agent, Mr. Stout, who explained its merits to the members of the gas board and the superintendent of the electric light plant, and left it here that they might test it. The lamp was placed on Chapline street between Twelfth and Fourteenth streets, in front of Mr. Julius Pollack's residence, where it has been giving the best of satisfaction for over a week.
The new lamp differs from the Woods in that instead of having two carbons, it has but one, and is encased in an airtight globe, thus forming a vacuum, and making it possible to burn one carbon sixty hours. In other words, one carbon would last about a week. The present light takes two every day. By having only one carbon, the positive and negative currents are combined and there is less trouble in keeping it burning. The new globe keeps the lamp free from bugs, another very meritorious feature.
It gives a clearer light than the present lamp and is of greater candle power on the same voltage. The manufacturers offer to furnish it to the city for \$10 each and the old lamps and as there are over four hundred light bulbs, the outlay would be something over \$4,000. Considering the saving, this figure seems small, when it is known that last year the city paid out \$2,712 for carbons and globe alone.
To-day the lamp will be taken to the alley on Main street north of Tenth, where it will be tested a week, after which it will be removed to the Eleventh ward, near Dr. Ford's residence. If it gives the satisfaction it has already given there is no doubt that it will be adopted.

When two Chinamen meet, their way of saying "How do you do?" is "How are your bowels?" It amounts to the same thing. If the bowels are in good condition the rest of the system is pretty sure to be all right. But when they are constipated, it has a half-paralyzing effect on the rest of the body—and the mind too. Headaches, dyspepsia, biliousness, nervousness, poor sleep, weakness, heart palpitation and gloomy spirits, all come from constipation. And that isn't the worst of it: It lays your system open to all sorts of serious and dangerous illnesses.

It isn't safe to neglect constipation and it isn't safe to use dangerous wrenching cathartics, to overcome it, either. They leave you worse off than before. What is needed is a mild natural laxative like Dr. Pierce's Pleasant Pellets. They act surely but without any violence. They regulate and strengthen the intestines to do their own work. When the "Pleasant Pellets" cure you, you are cured. You don't become a slave to their use. Take care the druggist doesn't give you something else he calls "just as good." It may be for him, but how about you?

You might learn a thousand valuable lessons about preserving your health by reading Dr. Pierce's Common Sense Medical Adviser. It is a grand book and the present edition is absolutely free to all who send 21 one-cent stamps to cover cost of mailing only. It contains 1000 pages and over 300 engravings. 680,000 cloth-bound copies have been sold at \$1.50 each. This free edition is in strong manila paper covers, otherwise it is just the same.
